against Cancer

Foundation against Cancer

Leuvensesteenweg 479

1030 Brussels

Dear,

Hereby we want to explicitly thank ACP Belgium N.V. for supporting the Belgian Foundation against Cancer. Given the fact that 1 man out of 3 and 1 woman out of 4 gets cancer in Belgium before his/her 75th birthday (or 179 new patients per day in Belgium), it is extremely important to fight cancer by all possible means. The foundation is doing this by:

- financially supporting cancer research
- organizing prevention campaigns
- supporting patients and their relatives
- harmonizing, streamlining different cancer initiatives in Belgium + lobbying

More information can be found in a small film called "3 minutes to discover the Belgian Foundation against Cancer" which is available on Youtube.

Year after year the foundation succeeds in increasing its budget thanks to the gifts of companies like ACP Belgium and many individuals. On behalf of so many patients and their relatives, we would to thank you for your much appreciated support.

Yours sincerely,

Koen Van Damme

Coordinator Partnerships
